1. Nature of operations and going concern

Power Metallic Mines Inc. (formerly Power Nickel Inc.) (the "Company" or "Power Metallic") is a mineral exploration company and is in the business of acquiring and exploring mineral properties in Chile and Canada. On February 20, 2025, the Company changed its name from "Power Nickel Inc." to "Power Metallic Mines Inc."

The Company is a publicly listed company incorporated in Canada with limited liability under the legislation of the Province of British Columbia. The Company's shares are listed on the TSX Venture Exchange ("TSX-V"), and Santiago Stock Exchange, Venture Market. The head office and principal address of the Company are located at the Canadian Venture Building, 82 Richmond Street East, Suite 202, Toronto, Ontario, M5C 1P1. The Company's registered and records office address is at Suite 700 – 595 Burrard Street, PO Box 49290, Vancouver, British Columbia, Canada, V7X 1S8.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's property interests may also be subject to increases in taxes and royalties, renegotiation of contracts, and political uncertainty. The Company's Chilean mineral property maintenance payments are in arrears (see note 12) and as a result, the Copiapó Court has been notified by the General Treasury of the Republic of Chile. The Copiapó Court may initiate the auction of the properties. If the Company's claims are put up for auction the Company, as concession holder, is not allowed to place bids on its claims under auction; however, the Company understands that the concession holder may remove a concession from auction by paying the penalty amount which is equal to double the patent amount outstanding. Accordingly, there is a risk that the Company will not be able to retain title to its mineral claims in Chile.

These unaudited condensed consolidated interim financial statements have been prepared on the going concern basis, which assumes that the Company will be able to continue as a going concern and realize its assets and discharge its liabilities in the normal course of business. These unaudited condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. During the three and six months ended June 30, 2026, the Company incurred a net loss of \$8,551,728 and \$17,613,008, respectively (three and six months ended June 30, 2025 - \$6,290,491 and \$14,760,934, respectively). As at June 30, 2026, the Company has incurred significant losses since inception totaling \$162,709,286 (December 31, 2025 - \$145,506,536). As at June 30, 2026, the Company has a working capital of \$16,885,902 (December 31, 2025 - \$5,473,149); the continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that additional funds will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of material uncertainties that cast significant doubt as to the Company's ability to continue as a going concern and accordingly use accounting principles applicable to a going concern.

2. Basis of presentation

Statement of compliance

These financial statements have been prepared in accordance with IFRS® Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and IFRIC® Interpretations of the IFRS Interpretations Committee ("IFRIC").

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The preparation of financial statements in accordance with International Accounting Standards (IAS) 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to these unaudited condensed consolidated interim financial statements were the same as those that applied to the Company's annual consolidated financial statements as at and for the year ended December 31, 2025, except as noted below.

The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2025. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2026 could result in restatement of these unaudited condensed consolidated interim financial statements.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS, which have been applied consistently to all periods presented. These unaudited condensed consolidated interim financial statements were issued and effective as of August 31, 2026, the date the Board of Directors approved the statements.

Basis of consolidation

These unaudited condensed consolidated interim financial statements incorporate the assets, liabilities and results of operations of all entities controlled by the Company. The effects of all transactions between entities in the consolidated group have been eliminated.

Prior to January 31, 2025, the consolidated financial statements included the accounts of the Company and its wholly owned Chilean subsidiary, Minera IPBX Ltda., and its wholly-owned Canadian subsidiaries, Tierra de Oro Resources Ltd. and Consolidated Copper and Gold Inc. (Previously Chilean Metals Exploration Ltd). The Company also indirectly owned 100% Canadian subsidiaries SPN Metals Exploration Ltd., TDO Metals Exploration Ltd., Pintada Minerals Inc., Pintada Holdings Inc., Palo Negro Mining Inc., Palo Negro Holdings Inc., Verna Exploration Ltd., and Verna Holdings Ltd. The Company also has a 100% indirect interest in three Chilean subsidiaries: Minera Tierra de Oro Ltda., Minera Palo Negro Ltda. and Minera Sierra Pintada Ltda. All material inter-company balances and transactions have been eliminated on consolidation.

On January 31, 2025, the Company completed a corporate reorganization whereby Chilean Metals Inc., was made the parent of the certain subsidiaries (see below). On February 3, 2025, the Company completed a spin-out transaction whereby approximately 50% of the shares in Chilean Metals Inc., were distributed to shareholders of the Power Metallic Inc.

2. Basis of presentation (continued)

Basis of consolidation (continued)

On March 26, 2025, the Company incorporated a new limited liability company in Saudi Arabia called Power Metallic Company LLC ("KSA").

These consolidated financial statements include the accounts of the Company, the wholly owned KSA, its 50% owned subsidiary Chilean Metals Inc. and its subsidiaries. Chilean Metals Inc. has the following wholly-owned subsidiaries: Consolidated Gold and Copper Inc., SPN Metals Exploration Ltd., TDO Metals Exploration Ltd., Pintada Minerals Inc., Pintada Holdings Inc., Palo Negro Mining Inc., Palo Negro Holdings Inc., Verna Explorations Ltd., Verna Holdings Ltd., Minera Tierra de Oro Ltda., Minera Palo Negro Ltda., and Minera Sierra Pintada Ltda.

Subsidiaries are entities over which the Company has control, where control is defined to exist when the Company is exposed to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are fully consolidated from the date control is transferred to the Company and are deconsolidated from the date control ceases.

New standards adopted:

The following new accounting pronouncement is effective for annual periods beginning on or after January 1, 2026 and has been incorporated into the Company's unaudited condensed consolidated interim financial statements:

- Classification and measurement of Financial Instruments - Amendments to IFRS 9 Financial Instruments and IFRS Financial Instruments: Disclosures
- Annual Improvements to IFRS Accounting Standards - Amendments to:
 - IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
 - IFRS 9 Financial Instruments;
 - IFRS 10 Consolidated Financial Statements; and
 - IAS 7 Statement of Cash flows

There was no material impact on the unaudited condensed interim consolidated financial statements as a result of their adoption.

Future Changes in Accounting Policies:

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2027. Many are not applicable or do not have a significant impact to the Company and have been excluded.

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements to improve reporting of financial performance. The new standards replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required and early adoption is permitted.

(a) Tierra de Oro, Chile

Tierra de Oro is an exploration project located in Region III on the eastern flank of Chile's Coastal Iron Oxide Copper Gold belt. The Company owns a 100% interest in exploration concessions in Region III, Chile. See Note 1 and 12 for status of claims in Chile.

(b) Zulema also known as Chicharra Property, Chile

The Company owns 100% of the rights to certain exploitation concessions and certain exploration concessions in Region III, Chile. See Note 1 and 12 for status of claims in Chile. During the six months ended June 30, 2026, the Chilean Metals Inc., suspended primary development of the Zumela project in Chile following the government's reallocation of certain historical claim licenses toward a designated national park.

4. Mineral exploration expenditures (continued)

(c) Other Properties, Chile

During the year ended December 31, 2020, the Government of Chile, released the Company from paying for a number of claims which had taxes owing. These claims related to non-core properties, and properties where the Company had ceased its exploration programs. See Note 1 and 12 for status of claims in Chile.

(d) Nisk Property, Quebec, Canada

On December 22, 2020 (the "Effective Date"), the Company entered into an option agreement with Critical Elements Limited ("Critical") whereby it acquired 80% ownership. Critical received a 2% net smelter return from the extraction and production of lithium products, of which the Company may, following the payment of \$2,000,000 in cash, reduce to 1%.

On June 9, 2025 (the "Effective Date") the Company entered into a purchase agreement with LI-FT Power Ltd. ("LI-FT") to acquire a 100% interest in the 313 mineral claims. Additionally, Li-FT retains a 0.5% NSR on all acquired claims under a royalty agreement between Li-FT and the Company effective the closing date. Certain of the claims also retain certain underlying royalties and in some cases buy back rights that were contained in previous agreements between Li-FT and prior property vendors. Under the terms of the agreement the Company paid \$700,000 in cash and issued 6,000,000 common shares. The shares are valued at the market price on the day of the closing of the acquisition except for 3,000,000 shares that have a one year trading restriction and a discount on lack of marketability of 17% was applied when determining the fair value of the shares.

(e) Golden Ivan, British Columbia, Canada

On January 14, 2021, the Company announced it finalized an option agreement dated October 7, 2020, to acquire 100% of the Golden Ivan property via a series of option payments and work commitments. On June 29, 2021, the agreement was revised to eliminate the cash payments and work commitment and expedite the payment by shares while reducing the overall quantity of shares by 1,000,000 shares from the original agreement. The revised terms are as follows:

- (i) 3,900,000 common shares within five Business Days after receipt of the TSXV Approval. These common shares were valued at \$1,209,000 based on the trading price of the Company's shares on the date of issuance.
- (ii) 6,500,000 common shares on or before June 29, 2021 subject to TSXV Approval. These common shares were valued at \$620,100 based on the trading price of the Company's shares on the date of issuance.

The Company has completed all option payments and has acquired a 100% interest subject only to a 2.5% NSR royalty. The Company retains the option to purchase 40% of this royalty for a one-time payment of \$1,000,000.

(f) KSA, Saudi Arabia

The Company acquired a 100% interest in the Jabul Baudan exploration license in the Kingdom of Saudi Arabia's Jabal Said Belt.

As part of the requirement for the license the Company placed a bond with Ministry of Industry and Mineral Resources of Saudi Ariba in the amount of \$381,465 (Saudi Riyal 1,050,000) (December 31, 2025 - \$383,670 (Saudi Riyal 1,050,000)) , which will be returned in March 2030.

5. Spin-out pursuant to the plan of arrangement

On February 3, 2025, the Company completed the plan of arrangement (the "Arrangement") whereby the Company spun out its Golden Ivan and Chilean properties assets and liabilities (the "Spin-Out"), at book value through an equity distribution. Prior to the completion of the Spin-out, the Company subscribed to 3,298,598 common shares of Chilean Metals Inc. ("Chilean") for gross proceeds of \$1,000,000. Immediately before the Spin-out transaction Power Metallic Inc. had 19,725,617 common shares of Chilean Metals Inc, and 50% was retained by Power Metallic Inc., and 50% was provided to the shareholders of the Power Metallic Inc. on a basis of one common share of Chilean for each twenty common share of the Company. In addition, option holders of the Company were issued, for each stock option held, one replacement stock option to acquire one New Share of the Company and one Chilean stock option to acquire 0.05 of a Chilean share. Subsequent to the spin-out transaction any warrants held prior to the Spin-out, when exercised also granted 0.05 of a Chilean share.

As the shareholders of the Company held their respective interests in Chilean; there was no resulting change of control Chilean Metals Inc. The Company retained control after the spin out transaction through its ownership and management of the Company's ownership of common shares on a combined basis being greater than 50%. As a result of the Arrangement there was a reduction in the ownership of Chilean. As such, the assets and liabilities assumed by Chilean, were originally recognized at the date of the acquisition at their historical costs as follows:

	February 3, 2025
Assets	\$ 1,022,855

12. Commitments and contingencies (continued)

Flow-through indemnification

The flow-through agreements require the Company to renounce certain tax deductions for Canadian exploration expenditures incurred on the Company's mineral properties to flow-through participants. Certain interpretations are required to assess the eligibility of flow-through expenditures that if changed, could result in the denial of renunciation. The Company indemnified the subscribers for any related tax amounts that become payable by the subscribers as a result of the Company not meeting its expenditure commitments. If the Canadian Revenue Agency ("CRA") determined that the Company was not compliant with their flow-through expenditure commitments, the Company may be liable to indemnify subscribers for any related tax amounts. No provision has been recorded in these unaudited condensed consolidated interim financial statements related to this contingency as various triggering events have not taken place.

Environmental and legal

The Company's operations are subject to government environmental protection legislation. Environmental consequences are difficult to identify in terms of results, timetable and impact. At this time, to management's best knowledge, the Company's operations are in compliance with current laws and regulations.

The Company may be subject to various claims, lawsuits and other complaints arising in the ordinary course of business. The Company records provisions for losses when claims become probable and the amounts are estimable. Although the outcome of such matters cannot be determined, it is the opinion of management that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, operations or liquidity.

Property taxes

As at June 30, 2026, the Company has unpaid property tax for various mineral exploration property claims totaling approximately 390,773,681 Chilean Pesos (\$587,188) (December 31, 2025 - 392,773,681 Chilean Pesos (\$598,925)) which has been included in accounts payable and accrued liabilities as at June 30, 2026. In the event that the claims are put up for tax auction, the Company expects to have a notice period to make the payment for the portion of this amount required (note 1). The property tax commitment for 2026 fiscal year is 146,714,392 Chilean Pesos (\$220,457).

13. Comparative figures

Certain comparative figures have been reclassified to conform with the current year's presentation. This reclassification had no impact on total expenses or net loss for the comparative periods.

14. Non-Controlling Interest

Through the Plan of Agreement, Power Metallic acquired 50% of Chilean on February 3, 2025 (note 5). As of June 30, 2026, the Company has a 50.92% ownership interest in Chilean through its ownership of common shares. The non-controlling interest represents the Chilean Common Shares not attributable to the Company.

Reconciliation of non-controlling interest is as follows:

15. Subsequent event

On July 30, 2026, the Company announced that it has awarded 11,300,000 incentive stock options under the Company's stock option plan to directors, officers and consultants at an exercise price of \$1.25 per common share for terms of two to five years (depending on the particular grant). It has also awarded 650,000 deferred share units (DSUs) to the Company's directors. All DSUs recorded in a participant's notional account are earned as of the grant date and will be settled on the DSU termination date, being the day that the DSU participant ceases to be a director of the Company for any reason.
